

We do not want K-LOVE 91.9 in our area to be at risk of being forced off the air in our community. It serves a vital purpose of reaching our area with commercial free, family friendly contemporary Christian music and helpful services, including but not limited to short devotionals, marriage helps, and helpful website information. To displace the translator service in our area with LPFM could disrupt this valuable service for our family and others like us. We believe that with all the vulgarity in the various media of today (including ads) it is refreshing to be able to listen to a station whose sole purpose is to uplift and reaffirm the family and moral values as the foundation of a healthy nation.
